

ARTHUR GASK

EVER SINCE HIS CHILDHOOD AS A PRODIGY, ARTHUR GASK HAD HAD ONE LOVE IN HIS LIFE - PURE MATHEMATICS. AT THE TENDER AGE OF 20 HE WAS A FULL PROFESSOR AT M.I.T WORKING WITH THE LESBEQUE INTEGRAL OF NON MEASURABLE FUNCTIONS.

1.

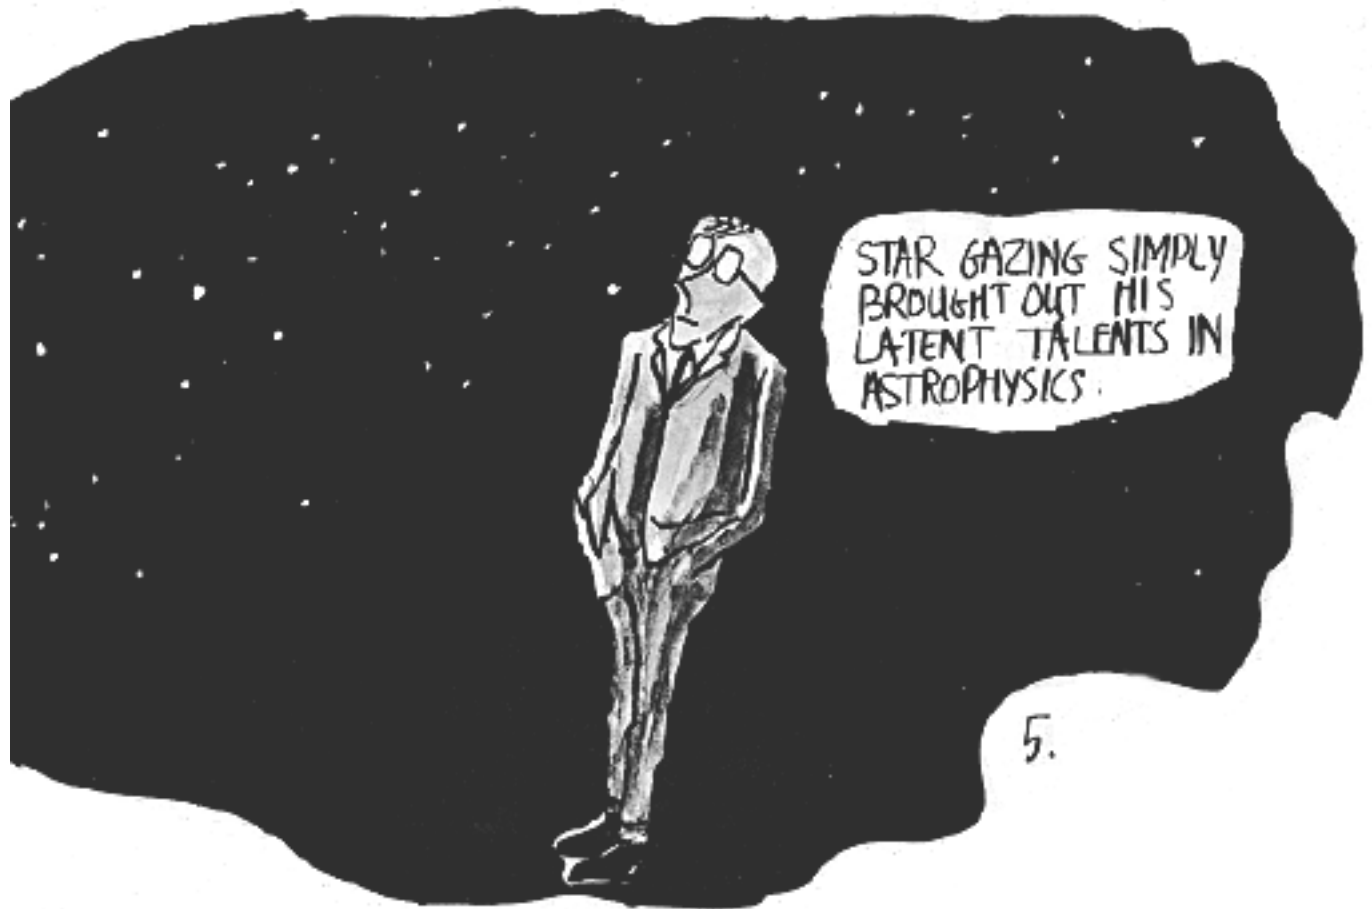

2.

SO HE LOOKED AT NATURE, BUT ALL HE COULD THINK OF WERE A FEW FORMULAE DESCRIBING ASPECTS OF PHOTOSYNTHESIS

FROM LOOKING AT PAINTINGS, HE DEVELOPED A THEORY OF NUMERICAL AESTHETICS.

STAR GAZING SIMPLY BROUGHT OUT HIS LATENT TALENTS IN ASTROPHYSICS.

THEN, ONE DAY...

ARTHUR MET ROYANNE.
SUDDENLY HE FELT
A RELATIONSHIP WITH
ANOTHER PERSON UNLIKE
ANYTHING HE HAD
EVER EXPERIENCED.

IT WAS THE
FIRST TIME IN
ARTHUR'S LIFE
HE HADNT BEEN
ABLE TO REDUCE
EVERYTHING
TO AN EQUATION.

OH ARTHUR, YOU'RE THE ONLY
PERSON I EVER FELT I
COULD FIND TRUE UNION WITH...

INTERSECTION, NOT UNION...

9.

$A \cup B \neq A \cap B \dots$

... NEVER MIND...

10.

ARTHUR WENT BACK TO PURE MATHEMATICS.

"IT MAY NOT BE
EVERYTHING," HE
NOTED, "BUT IT
IS PERFECT."
